

TAX STAMPS

A Technical Study and Market Report

The definitive source of data and analysis on the tax stamp market worldwide for tobacco and alcohol

- The first survey of the global market for tax stamps - the world's most numerous security-printed document
- Giving you key market data and analysis on consumption, opportunities and trends
- Essential reading for companies involved in equipment, components and services for tax stamp production

CONTENTS

- The history and development of tax stamps
- The benefits of tax stamp regimes
- The chain of command
- Production, systems and materials
- The supplier landscape
- Case studies
- Market analysis
- The future
- Country and regional tables

This is the first study available to examine and analyse:

- the evolution and implementation of tax stamp regimes around the world
- the factors – social, economic and political – driving the growth of tax stamps
- the stakeholders – specifiers, manufacturers, distributors, enforcers and suppliers
- formats and methods of tax stamp production, application and distribution
- key suppliers
- market opportunities
- future methods and technologies
